# User manual

**Collections Combo Box**  
Jump from one Collection to another

**Thumbnails menu**  
Click to select thumbnail size.  
Choose between:  
- Small  
- Medium  
- Large  
- List

**Collections menu**  
Click to choose an action:  
- New Collection  
- Delete Collection  
- Rename Collection  
- Import Collection  
- Export Collection

**Styles thumbnails**  
Displays a preview of your Styles.  
**Right Click to:**  
Replace or Rename a Style.  
**Hover to display Style's name.**

**Reset Filters**  
Click here to remove all filters from the selected object

**Recycle Bin**  
Drag a Style thumbnail over this icon to delete it.

**Create new Style**  
When inside QuickStyles Collection (or if using LIGHT version) just click here to automatically add a new Style - a new name will be chosen for you. Otherwise, before saving, you will be prompted to insert a Style name.

## The Styles

### Create a new Style:

Press the “**Create New Style**” button. If you’re inside the “---QuickStyles” Collection - or are using HOLO Styles Light version - a new name will be automatically chosen for you. Otherwise, a panel will appear, asking that you insert a name of your choice.

### Replace a Style:

Right Click on a Style’s thumbnail, and choose “**Replace Style**”.

### Rename a Style (*FULL version only*):

Right Click on a Style’s thumbnail, and choose “**Rename Style**”.

### Delete a Style:

Click on a Style’s thumbnail, and drag it over the **Recycle Bin** on the lower right corner of HOLO Styles panel.

### Display a Style’s name (when not in List view):

Just **hover** over a Style’s thumbnail and wait a half second to display it’s name.

### Remove all Filters/Styles from an object:

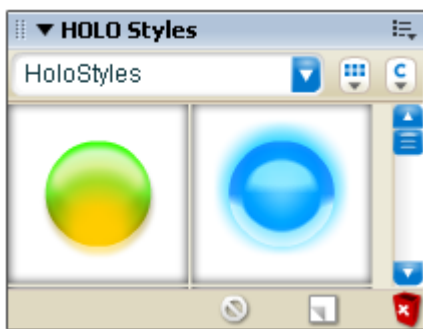

Press the **Reset Filters** button on the lower bar.

## Style thumbnails size

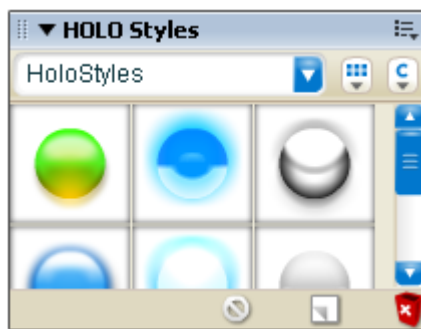

Select the **Thumbnails menu**, and choose the desired view.

**Small/Medium/Large view** - displays thumbnails of various sizes.

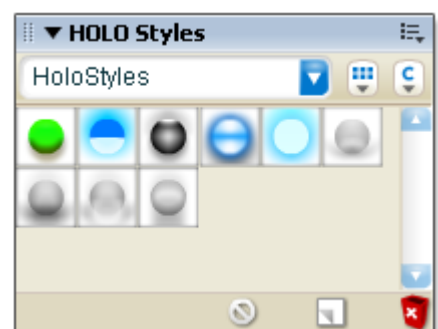

**List View** - displays a small thumbnail of the style, along with it’s full name.

## The Collections - FULL version only

Consider the Collections as a series of Style groups. You can create as many collections as you like, and save as many Styles as you like inside each Collection. Plus, you can import and export entire Collections, so you can share them with other designers.

### **Jump from one Collection to another:**

Simply use the **Collections Combo Box**, which displays all of your Collections.

### **Create a new Collection:**

From the Collections menu, choose “**New Collection...**”. You will be prompted to insert a new name for it, then it’s done.

### **Delete a Collection:**

From the Collections menu, choose “**Delete Collection...**”. You will be prompted to confirm your choice. If you choose “Delete”, the Collection and all of it’s Styles will be erased from your computer.

### **Rename a Collection:**

From the Collections menu, choose “**Rename Collection...**”. You will be prompted to insert a new name for it, then it’s done.

### **Export a Collection:**

From the Collections menu, choose “**Export Collection...**”. You will be prompted to choose a folder where the Collection will be exported. Then, a new folder with the same name of your Collection will be created in that location, containing all of it’s Styles.

### **Import a Collection:**

From the Collections menu, choose “**Import Collection...**”. You will be prompted to choose a Collection folder to import. After that, the Collection will be saved inside HOLO Styles folder and opened inside HOLO Styles panel.
